

## CURRICULUM VITAE

### **Sebastian Krems Board Member (COO)**

Having completed his studies of telecommunications, Sebastian Krems started his professional career at Alcatel in 1990 where he was involved in the development and international launch of the GSM standard for mobile telephony. Between 1996 and 1999, Krems held a position as head of product management for access networks at Robert Bosch GmbH before joining the Berlin-based telecom companies Berlikomm and BerlinNet GmbH for long-term executive positions.

From 2005 until 2009, Sebastian Krems headed the “Communication Technology” competence practice as managing partner and member of the board at Detecon International GmbH, focusing on strategies, design and implementation of innovative and powerful network architectures, communication platforms and business models for terrestrial and wireless communication.

Sebastian Krems was appointed Chief Operating Officer of LambdaNet Communications Deutschland AG in April 2009.
